SEE
WHAT YOU
CAN DO

Welcome to the comfort zone!
clearmaxx – things are clear!

Work with your own climate comfort zone

Unlimited clear view of your workspace, filtered and clear air with adjustable air distribution make the clearmaxx the unique face and respiratory protection system with the highest safety level.

Multi function system

Combining it with the optrel e3000X PAPR system with mountain breeze filter the clearmaxx becomes the perfect buddy on countless types of work. The easy-to-change DIN5 front cover lens expands the system to the perfect protector for efficient plasma cutting.

Wearing comfort

Thanks to a minimized weight of only 330 g (PAPR version: 495 g) and an ergonomic fit the clearmaxx sets new benchmarks in wearing comfort.

Keep a clear overview

consisting of clearmaxx, e3000X,
parking buddy and bag

The unbeatable team: the optrel clearmaxx mit Gebläseat emschutzsystem optrel e3000X

Adjustable air distribution

A rotary switch can be used to feed 20% of the air cooling the forehead area. Direct air draft crossing the eyes leading to dry eyes is avoided by the air distribution system.

For rough environmental conditions, a highly efficient welding protection system is indispensable for ensuring that the welder's state of health allows him to continue to work. The optrel e3000X ventilated breathing system with its integrated particle filter of the, highest class TH3, reliably protects the welder's airways from smoke, aerosol, and dust when used in conjunction with an optrel PPR welder's helmet.

It filters out **99.8 %** of the respirable particles, such as the following:

- aluminum oxide
- iron oxide
- magnesium oxide
- barium compounds
- lead oxide
- fluorides
- copper oxide
- manganese oxides
- molybdenum oxide
- vanadium pentoxide
- chrome (III) compounds
- chrome (IV) compounds
- zinc oxide
- titanium oxide
- nickel oxide
- cobalt oxide
- cadmium oxide
- beryllium oxide

With the optional A1B1E1 gas filter, the system of e3000X and clearmaxx also protects against many hazardous gases in toxic environments:

- A Certain organic gases and vapors with the boiling point > 65° (brown)
- B Certain inorganic gases and vapors (except carbon monoxide) (gray)
- E Sulfur dioxide and other acid gases (yellow)

Consumable	Item no.
 Clear cover lens (poly carbonat) clearmaxx	5000 .038
 tearoff foil clearmaxx	5000.039
 Clear lens cover lens (shade level 3) for clearmaxx	5000.049
